

APHON 2025

INTERNATIONAL SCHOLARSHIP PROGRAM

Applications are Now Open through 04-28-2025, for the APHON International Nurse Scholarship Program!

APHON is proud to support pediatric hematology/oncology nurses worldwide through the International Nurse Scholarship Program. This **12-month scholarship** provides nurses from countries outside the US and Canada with education, resources, and a connection to the APHON community—helping to advance care for children with cancer and blood disorders.

In 2025, two scholars will receive:

- Complimentary APHON Membership for one year
- Online learning opportunities through the ACE Center
- Access to professional resources, including the Journal of Pediatric Hematology Oncology Nursing and more
- Access to an APHON Global Ambassador Partner who will meet with you regularly, orient you to all the resources APHON has to offer, help answer questions, and collaborate.

Visit here for more details: aphon.org/members/global-outreach/

To date, APHON has enriched the professional lives of **39 nurses from 19 countries**, and now we need your help to identify our next deserving scholars. This program is supported by contributions to APHON's Global Outreach Fund.

APHON International Nurse Scholar Program

A world map with red location pins indicating the countries of origin for APHON International Nurse Scholars. Surrounding the map are several callout boxes, each featuring a scholar's photo, name, country, and a testimonial about their experience.

Attending the 2019 APHON conference as an international scholar introduced me to the extraordinary pediatric oncology community and allowed me to create lasting connections with nurses from around the world.

Valeria Rangel Rodriguez
MEXICO

This opportunity. This helped me to pursue my dream and achieve it by becoming a pediatric hematology oncology nurse in one of the best programs in the USA.

Adel Dawood
LEBANON

I became the focal person who trains new nurses and nursing students about pediatric oncology nursing in my home institution.

Imelda Busingye
UGANDA

Attending the event was a unique experience. I was warmly welcomed by people who were always willing to help and include me in the sessions. The most important aspect, apart from the exchange of knowledge, was the personal connection and the pursuit of new friendships.

Talita Bueno
BRAZIL

Winning the APHON Conference Scholarship 2022 changed my whole perspective of what oncology nursing is & more precisely pediatric nursing.

Lilly Lyangu Lifuti
ZAMBIA

Attending the APHON conference equipped me with a global perspective of pediatric oncology nursing and has enabled me to contribute confidently and effectively in our childhood cancers technical working groups forums.

David Makumi
KENYA
